

CHECK-IN • AUGUST 19, 2026

Business Spotlights.

Every member now has one. Here's what shipped, what members are telling us, and how we turn the directory into a destination.

WHERE WE ARE

Every member has a Business Spotlight.

Not a beta cohort anymore — the whole active roster. Each one is a mobile-first page with the business's own photos, hours, reviews and contact info (where available), and each one is editable by the owner through a private link.

578

MEMBERS WITH A LIVE
BUSINESS SPOTLIGHT

509

VERIFIED AGAINST A GOOGLE
BUSINESS PROFILE

100%

HAVE A PRIVATE
OWNER EDIT LINK

Monthly

AUTOMATIC REFRESH OF HOURS,
PHOTOS & REVIEWS

The monthly refresh runs on its own — it pulls fresh hours, photos and reviews from Google without touching anything an owner has customized.

WHAT WE CALL THEM

"Business Spotlight."

One name, used everywhere — in the directory, in your social posts, in member emails, on the recruitment brochure. It reads like a benefit a member *receives*, not a piece of software they have to learn.

SAY THIS

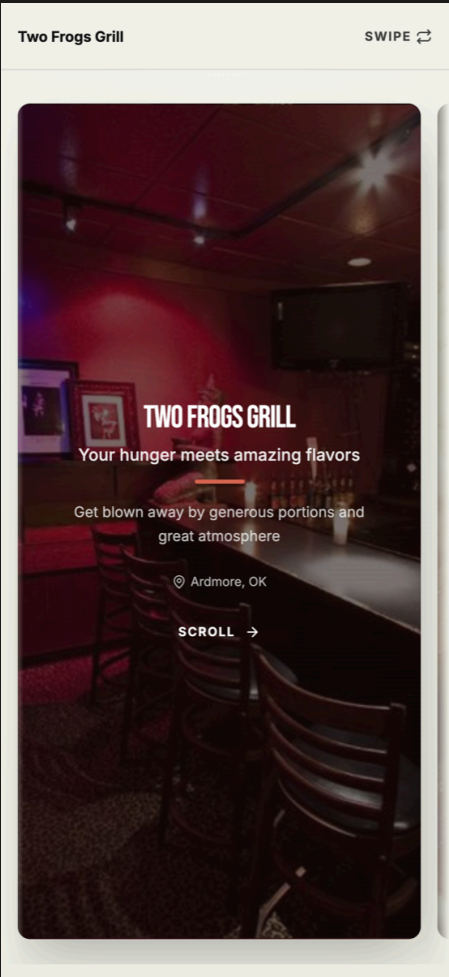

"Your Business Spotlight is live — here's your link."

NOT THIS

"Your deck / your profile / your TownSpark page."

WHY

Consistent naming makes it shareable. Members repeat words they understand.

READY TO USE

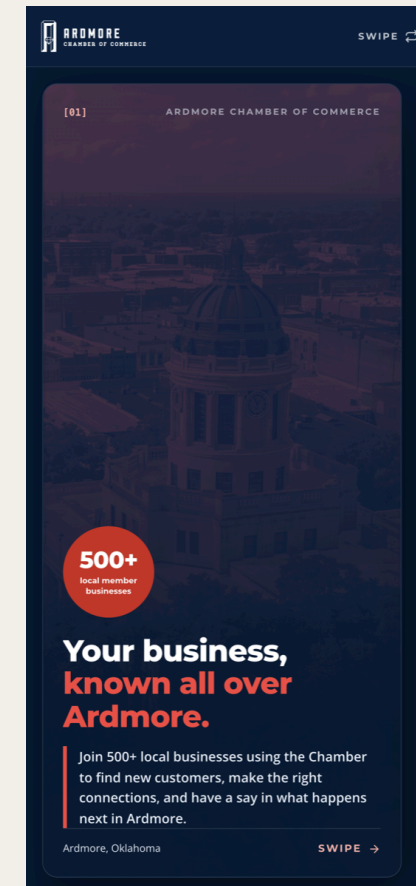

LIVE

The Chamber recruitment brochure — now digital.

A swipeable, mobile-first version of the membership pitch — the same four member outcomes, the programs, the proof, and the pricing, in a format you can text to a prospect or drop into an email.

- Works on a phone — built for the hand-delivered postcard QR.
- Links straight into the **member directory** as proof.
- Nothing to print or reprint when something changes.

FEEDBACK → SHIPPED

Ryan at 1NB asked good questions. We built the answers.

Real member feedback is the fastest way to find what's actually in the way. Three of those questions are now shipped changes.

FIXED

Better thumbnail

The image that shows up when a Spotlight is shared or posted now reflects the business properly.

REBUILT

A clearer edit screen

Editing is now one page at a time with a live preview beside it — you see the change as you make it, on a phone or a laptop.

NEW

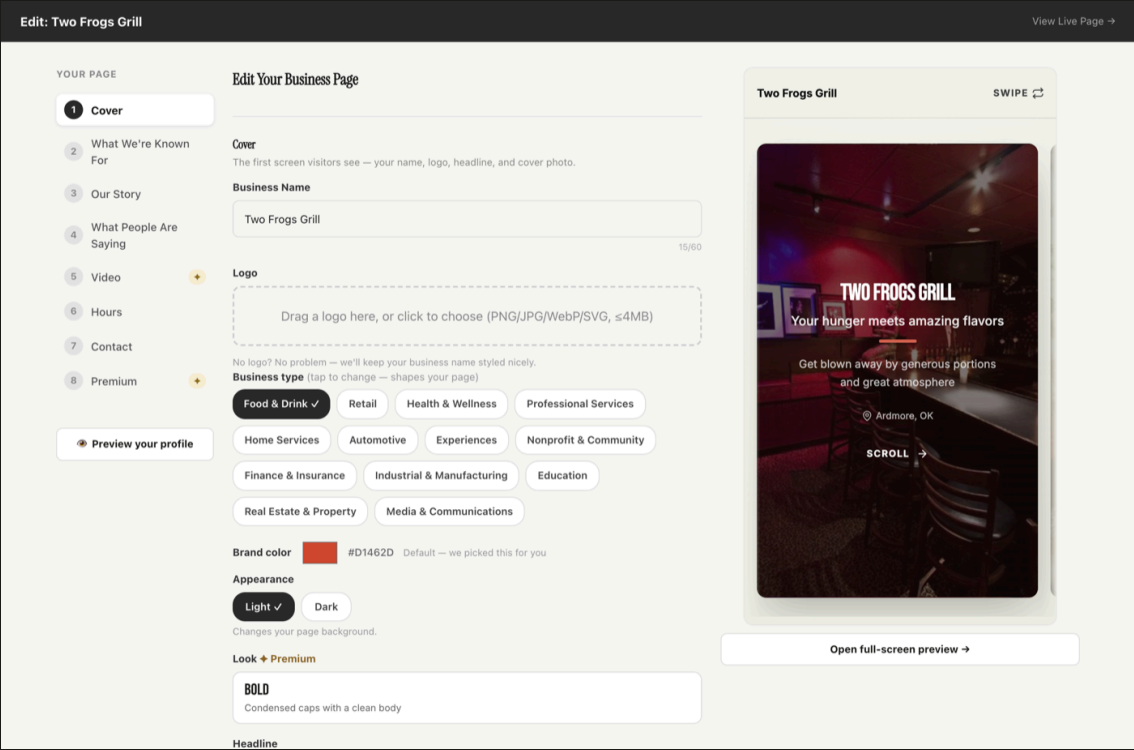

Premium upgrade options

The upgrade path we discussed is now in the product and testable — six months free to start.

WHAT A MEMBER SEES

Edit one page at a time. Watch it change.

- Step-by-step down the left — cover, what they're known for, story, reviews, hours, contact.
- A **live preview** of the real page on the right, updating as they type.
- Photos, logo, brand color and business type are all **free to change**.
- Nothing to install, no password to remember — a private link is the key.

Premium is in the product — free for six months.

6 months

FREE, THEN \$19 / MONTH

A member turns it on themselves from their edit screen. Nothing is charged during the trial, and they can turn it off at any time.

CHAMBER SHARE	HALLPASS SHARE

WHAT PREMIUM ADDS

01 Featured placement in the directory

TOP OF THEIR CATEGORY, WITH A BADGE

02 A video on their Spotlight

PASTE A YOUTUBE, FACEBOOK OR VIMEO LINK

03 Custom typography

NAMED DESIGN "LOOKS" FOR THEIR PAGE

04 Their own performance numbers

VIEWS AND CLICKS, EMAILED MONTHLY

THE QUESTION ON THE TABLE

How do 578 members each get their two links?

Every member has a public Spotlight link and a private edit link. We already have both, for all of them, in one export. What we don't have yet is the *send*.

HAVE	NEED	PROPOSAL
A one-click CSV of every member with their Spotlight link and their private edit link.	A mail merge that sends each member their own two links — and a reminder to those who never open it.	Hallpass builds and sends it, so it's not Jordan's list to maintain by hand. Decision needed: which email tool it sends from.

Edit links are private and per-business — anyone holding one can edit that page, so they go to the member directly, never into a public post.

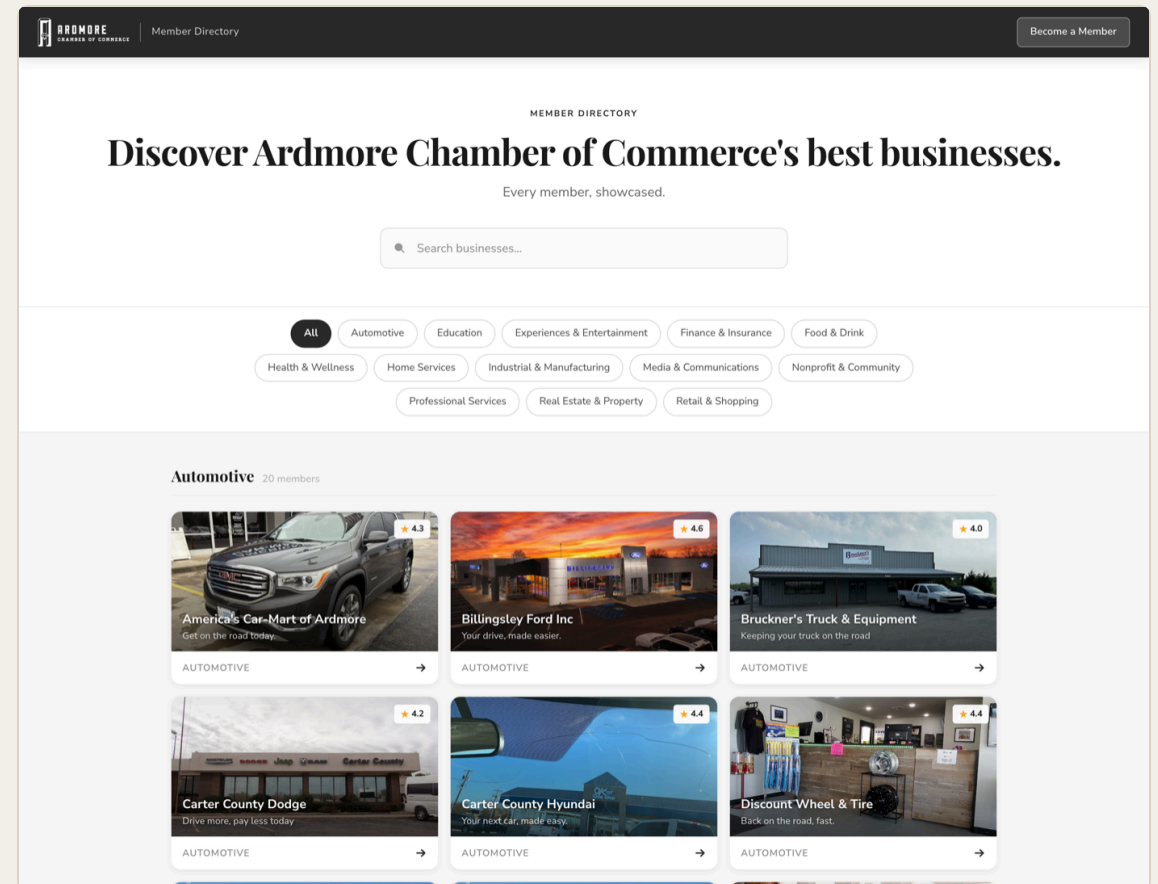

THE BIGGER IDEA

An internal tool helps members. A destination brings them customers.

Right now the directory is something the Chamber points members to. The asset gets meaningfully more valuable when people *outside* the Chamber land on it — someone searching for a plumber, a dentist, a place to eat.

That's the difference between a member benefit and a member **lead source** — and it's what makes a paid upgrade worth buying.

- Every Spotlight is already a real, indexable page.
- Two ways to drive traffic to them — social, and editorial.

TWO PLAYS

One the Chamber runs. One we run for you.

PLAY 01 — CHAMBER SOCIAL

Share the Business Spotlight.

When you post about a member, link their Spotlight instead of a plain photo. Same effort, and the post now sends real traffic to a page that shows their hours, photos and reviews — and a link to their site.

Hallpass writes and hosts the editorial. It's a separate voice from the Chamber's on purpose — a visitor trusts a "best of" guide differently than a membership page.

PLAY 02 — EDITORIAL CONTENT

Content that doesn't look like the Chamber wrote it.

Guides people actually search for — *Best Family Restaurants in Ardmore, Best Pizza in Ardmore, Best Dentists in Ardmore* — that read independently and link into member Spotlights.

MEMBER PUBLICITY REPORT

Automate everything countable. Leave Jordan the judgment calls.

The goal is a per-member report at renewal that shows what the Chamber actually did for that business — pulled automatically wherever the number exists.

AUTOMATIC — FACEBOOK

Every time a member is posted about

Connecting the Chamber's Facebook page lets us log each post that mentions or tags a member, with its reach — no one has to write it down.

AUTOMATIC — NEWSLETTER

Every newsletter they appeared in

Forward the newsletter to one address and we read the member mentions out of it automatically. Nothing changes about how Jordan sends it.

MANUAL — JORDAN

The in-person things

Ribbon cuttings, event attendance, committee service, referrals. Short entries, only for what a computer can't see.

The ask is small: connect the Facebook page once, and forward the newsletter. Everything else assembles itself.

QUESTION — RAISED BY A MEMBER

American Nation Bank shows up six times. Is that six memberships?

Ryan at 1NB flagged it — and the pattern isn't unique to them. Six organizations account for *25 separate listings* in the roster, because each branch is its own line.

American Nation Bank

6 listings

Citizens Bank & Trust Company

4 listings

BancFirst

3 listings

First National Bank & Trust of Ardmore

6 listings

Edward Jones

4 listings

First Bank & Trust Co

2 listings

If each branch is a paid membership, the listings are correct as-is. If it's one membership with locations, we should group them under a single Spotlight with its branches listed — cleaner in search, and fairer to everyone else.

Either way it's your call, not a technical one. Tell us which and we'll match the directory to it.

WHAT WE NEED FROM YOU

Four asks.

01 Which ChamberMaster report is the source of truth?

WE'VE PULLED SEVERAL EXPORTS AND THEY DON'T AGREE ON WHO'S A MEMBER

02 Branch listings — one membership or many?

DETERMINES HOW MULTI-LOCATION MEMBERS APPEAR IN THE DIRECTORY

03 An intro to your webmaster

CONTACT INFO, OR START AN EMAIL THREAD WITH HIM — ONCE THESE ASSETS ARE APPROVED

04 ChamberMaster API access

SO THE ROSTER SYNCs ITSELF INSTEAD OF A CSV EVERY FEW MONTHS

The first two we can act on the day you answer. The last two are what let this stop being a manual process.

WHAT'S NEXT

Get the links to members. Get outsiders to the directory.

- Stand up the **member email** so all 578 get their Spotlight and edit link.
- Start posting **Spotlight links** in Chamber social instead of plain photos.
- Publish the first **editorial guides** and watch what traffic they send.
- Settle the **roster and branch questions** so the directory is exactly right.

Thanks — good problems to have at this stage.
